## Rahul Bose dubs for *Niruttara*

Rahul Bose is in town to dub for his debut movie in Kannada. *Niruttara*, directed by Apoorva Kasaravali, is made under Hometown Productions. Bose is at Ashwini Studio with the director, and is keen to dub in his own voice. "Fifty per cent of an actor's contribution to the character comes from his or her voice. I dubbed in my own voice for the Tamil film, *Vishwaroopam*. And that has made dubbing for my first Kannada film that much easier," he says. Rahul is taking help from Apoorva to get the words and pronunciation right. — **Express Features**
